ABOUT THE PROJECT

This family-run business started as a local grocery retailer and is now a multi-billion-dollar enterprise spanning technology solutions, food service, international trade, sports properties and more. When the team needed to build out a space for their executive team and create a wow factor for clients and investors, DIRTT was their interior construction choice. Embedded TVs share up-to-the-minute stock market news, and the company's history is honored with integrated and flexible sports memorabilia displays.
